

# Installation Monitoring Plan

Definitive-period monitoring plan coverage and control-system evidence

Package A1111 | Release 5

AUTOMATED PREPARATION CHECKS  
PASSED

CONFIDENTIAL - VERIFIER PREPARATION WORKSPACE

## DOCUMENT BOUNDARY

This package supports preparation for independent verification. It is not a verification opinion, accreditation decision, customs decision, CBAM Registry submission or acceptance guarantee.

| Control field |                                                                  |                 |                          |

| Ruleset       | 3.0.0                                                            | Source registry | CBAM-EU-2026.08.13       |
| Root hash     | 1c94a8333f1c71e2bd217e74a1c8ba413c3b5a82615e669175cd2fbd16d38c3e | Verifier status | NOT_REVIEWED             |

## Installation and boundary

Coke preparation, sinter plant, blast furnace, basic oxygen furnace, casting and finishing operations within the controlled installation boundary.

Production route: Blast Furnace Route (BF-BOF)

## Minimum monitoring-plan elements

| Require ment |                                                                 |             |                                                                                                                                                    |
