CN Code - Classification boundary

This document records the classification supplied in the sealed case. It does not replace a binding customs classification decision. Any disputed or uncertain CN code remains subject to customs review.

Checklist - Monitoring-plan requirements

Require ment			
MP-01	Monitoring-plan date, version and responsible operator identity	DOCUMENTE D	Case version 1; owner recorded
MP-02	Installation description and production processes	DOCUMENTE D	Blast Furnace Route (BF-BOF)
MP-03	CN-coded goods and functional production units	DOCUMENTE D	2 good(s) recorded
MP-04	System boundaries and directly connected processes	DOCUMENTE D	Coke preparation, sinter plant, blast furnace, basic oxygen furnace, casting and finishing operations within the controlled installation boundary.
MP-05	Source streams, emission sources and measurement methods	DOCUMENTE D	0 precursor(s); direct and electricity inputs recorded
MP-06	Data-source hierarchy, corroboration and control activities	DOCUMENTE D	4 approved and clean evidence file(s)
MP-07	Calculation methods, conversions and rounding	DOCUMENTE D	8 hashed trace node(s)
MP-08	Goods allocation method and reconciliation	DOCUMENTE	Allocation delta 0

Sector			
Iron and Steel	IN_FORCE	Coke oven, sinter or pellet preparation, blast furnace, basic oxygen furnace, direct reduction, electric arc furnace, casting and finishing processes within the installation boundary.	Mass balance and production ledger; Fuel and reducing-agent consumption; Precursor embedded emissions; Waste-gas and transferred-heat treatment; Allocation to CN-coded goods

Methodology - Decision register

Topic					
PRECURSOR_SC OPE	No qualifying precursor line is declared for the fixture goods and controlled route.	The controlled bill of materials and production route contain no separate precursor goods requiring an additional precursor line in this fixture.	Regulation (EU) 2023/956 Annex IV and Commission Implementing Regulation (EU) 2025/2547; supported by the controlled bill of materials.	ACCEPTED	11111111-1111-4111-8111-555555555555
GOODS_EMISSIONS_ALLOCATION	Allocate installation emissions using documented product mass shares of 0.6 and 0.4.	The two goods are produced in the same controlled period and the reconciled product ledger provides complete mass shares summing to one.	Commission Implementing Regulation (EU) 2025/2547 allocation and monitoring-plan requirements; controlled production ledger.	ACCEPTED	11111111-1111-4111-8111-444444444444

Calculation Annex - Engine identity

Control	
Ruleset	EU-CBAM-DEFINITIVE-2026
