Declared system boundary

BOUNDARY

Coke preparation, sinter plant, blast furnace, basic oxygen furnace, casting and finishing operations within the controlled installation boundary.

Sector methodology

Sector			
Iron and Steel	IN_FORCE	Coke oven, sinter or pellet preparation, blast furnace, basic oxygen furnace, direct reduction, electric arc furnace, casting and finishing processes within the installation boundary.	Mass balance and production ledger; Fuel and reducing-agent consumption; Precursor embedded emissions; Waste-gas and transferred-heat treatment; Allocation to CN-coded goods

Boundary limitation

The sealed boundary is the operator-declared and evidence-linked preparation boundary. The independent verifier remains responsible for confirming conformity with the applicable sector-specific legal boundary.
